

## ❖ Personal information:

**Name:** Ali Mohammad Ali

**Address:** Silicon Oasis, Dubai, UAE

**Phone Number:** +971 50 258 4060

**Email Address:** Alimohammad30101997@gmail.com

**LinkedIn:** [www.linkedin.com/in/ali-mohammad3/](https://www.linkedin.com/in/ali-mohammad3/)

## ❖ Experience:

### Architecture Engineer

#### ➤ Project Manager / Architectural Designer

**Vector Project Management Services** (April 2023 – December 2023)

Dubai – United Arab Emirates.

- Develop innovative and visually compelling architectural concepts in response to client requirements, especially the interior and exterior 3D designing of villas (In Dubai, Umm Al Quwain, Fujairah).
- Research and select appropriate materials, finishes, and colors based on design concepts, budget constraints, and project specifications.
- Work closely with structural engineers, MEP consultants, and other specialists to integrate their input into the architectural design and resolve any interdisciplinary issues.
- Prepare comprehensive construction documents, including contracts and detailed drawings and specifications, to facilitate the construction process and ensure accurate implementation of the design.
- Conduct site visits to assess project progress, verify adherence to design intent, and address any on-site challenges that may arise during construction.
- Develop comprehensive project plans, outlining timelines, milestones, and resource allocation to ensure the timely and successful completion of projects within the time, budget and quality dimensions.
- Manage project budgets, tracking expenditures, and ensuring cost-effectiveness while adhering to financial constraints in addition to identifying potential risks and develop proactive strategies to mitigate issues that may impact project timelines or deliverables.
- Supervising the work of implementing air conditioning (duct – split) and MEP extensions.

➤ **Architectural Designer – Team leader:**

**Novert Arch Center** (Feb 2020 – march 2023)

Tartous – Syria.

- Lead and manage the cross-disciplinary team while, fostering collaboration to achieve project goals.
- working closely with the team to deliver projects (Decoration works -Interior Design - Exterior Design -project implementation -Shop drawing - Building Licenses)
- Working as a Trainer. giving engineering programs courses (AutoCAD - 3Dmax - Revit), as well as prepare graduation projects of architectural models and three-dimensional representations with the help of engineering programs.
- Negotiate with clients, define project requirements, and maintain continuous communication to ensure client satisfaction.
- Effectively manage project budgets, accurately identifying expenses to maintain financial sustainability.
- Provide creative ideas and design solutions to enhance project quality and meet client expectations.
- Seek new project opportunities and expand business scope to promote the growth of the engineering office.

➤ **Architectural Designer** (Freelancer):

**Al-Alalameya Ceramics Company** (Jan 2021 - May 2022)

Baghdad – Iraq.

Drawing and developing interior and exterior design concepts for a various residential and commercial project (plans – elevation – perspective ....).

❖ **Education:**
